REMARKS

25X1 1. The landing field of the TASZAR (Y 5/B 06) airfield northeast of KAPOSVAR (Y 4/A 95) was serviceable on 8 May 1949. All buildings were destroyed except 102 two which were in poor condition. The field, though unoccupied, was guarded by Hungarian police.

2. In mid-June 1949 Hungarian workers supervised by Soviets were engaged in improving the TASZAR airfield and constructing a runway about 6,600 feet long. After completion of the work, the workers were to be transferred to PECS (Y 5/B 22).

3. A Hungarian worker who was engaged in improvement work at the FERHEGY (Q 48/H 61) airfield stated in late June 1949, that, after completion of the work, he was to be assigned to reconstruction and expansion work at the PECS airfield.

25X1 Comment:

25X1 a. The existence of an airfield near KAPOSVAR is known from previous reports

25X1 b. The statements in paras 2 and 3 cannot be judged for lack of comparable information.
